Falls Church Community Center Closed for Maintenance Aug. 27-Sept. 3

FALLS CHURCH, VA. – The City of Falls Church Community Center (223 Little Falls St., Falls Church) will close for annual maintenance Monday, Aug. 27-Monday, Sept. 3, 2007. The closing, which takes place each year at the end of summer, is scheduled to allow for cleaning, painting and other maintenance needs.

During this time, the Community Center will be closed to all activities, drop-in recreational use, room rentals, and other normally scheduled functions. However, employees will staff the front desk and will conduct regular business activities such as answering the phone, completing sports and class registrations, and entering facility reservations. The Community Center will not be staffed Sunday, Sept. 2 and Monday, Sept. 3 in observance of the Labor Day holiday.

The Community Center is a focal point in the City of Falls Church community. It houses the administrative offices of the Recreation & Parks Division, the Teen Center, and the Senior Center. The Community Center also serves as a recreational center, entertainment center, information center, and meeting place for City residents. More than 550 general recreational activities, 50 special events, 40 summer camps, and 11 dances are held in the Community Center each year.

Because of its heavy usage, it is critical for the City to regularly repair the Community Center to ensure citizens have a clean, safe, and properly maintained gathering place.

For more information, please call the Recreation & Parks Division at 703-248-5077 (TTY 711).
